**INTERIOR:**

This helicopter boasts a beautifully appointed 6 pax executive interior w/rose carpeting throughout. The interior veneer woodwork is a medium toned hardwood, w/satin gloss finish. The VIP refreshment center includes: opendecanter storage, 5 storage drawers for beverage, snacks, mini storage & ice. Seating in this large VIP cabin features: 2-Aft facing singles & a 4-Place fwd facing divan. All seating is covered in soft gray leather.

**EXTERIOR:**

Overall Jet Glo White with dark green, black, and gold accent striping.

**COMMENTS:**

The S-76C+ delivers a performance edge that translates into a competitive advantage in today's business world. It's entirely about comfortably transporting VIP passengers and flying further and faster than ever before. This aircraft has the power to handle heavy payloads with its dual Turbomeca ARRIEL 2S1 engines delivering 856 shp each and 18% more take-off power than its predecessor. The S-76C+ has long-range capabilities of 430 nautical miles with maximum speed of 155 kts. and a long range cruise speed of 140kts.

The S-76C+ helicopter combines flexibility and agility with all the comfort, safety and quietness of a luxury corporate aircraft. This spacious, air-conditioned cabin enables executives to transition effortlessly from the office or corporate aircraft to the helicopter while working and meeting in a setting that promotes productivity. These features validate the overall value of this remarkable helicopter.
